Patrick Ramirez

Senior iOS Engineer | Swift, SwiftUI, UIKit
New York City Metropolitan Area • (872) 529-7205 • patrickramirez5087@gmail.com

PROFESSIONAL SUMMARY

Senior iOS Engineer with 9+ years building performant Swift and SwiftUI apps for consumer and enterprise platforms, with recent focus on AI integrations, offline support, Swift 6 concurrency, CI/PR automation, and leading vendor teams.

CORE SKILLS

Languages and Frameworks: Swift, SwiftUI, UIKit, Objective-C, iOS SDK, Swift Concurrency

Architecture and Testing: VIPER, Clean Architecture, unit testing and TDD, XCTest, Instruments

APIs and Data: RESTful APIs, Firebase, Core Data, Realm, Swift Package Manager, CocoaPods

Delivery and Quality: App Store publishing, CI/CD, Azure DevOps, GitHub Actions, Fastlane, Danger Swift, SwiftLint

User Experience: Accessibility and localization, multi user account systems, Agile/Scrum, mentoring

AI Assisted Development: GitHub Copilot, Claude Code

PROFESSIONAL EXPERIENCE

Senior iOS Developer (iOS Lead) **Nov 2022 to Oct 2026**

Sun Communities & Sun Outdoors, Remote

- Led the NavigateAI integration with a third-party vendor, defining the architecture and webhook-based data sync for AI damage detection and auto-filled reports, cutting inspections at 500 properties from 15–20 to 5–7 minutes.
- Owned the iOS architecture and led rotating third-party vendor teams for 3+ years, shipping 10+ major features.
- Engineered local offline support that let on-site staff complete inspection reports at low-coverage properties, reducing lost reports from 5% to zero.
- Established CI/PR quality standards on Azure DevOps with Fastlane, Danger Swift, and SwiftLint.

Senior iOS Engineer (Contract) **Apr 2021 to May 2022**

CVS Health, Florham Park, NJ

App: CVS Pharmacy, supporting mobile payments, ExtraCare offers, prescriptions, and Curbside Pickup.

- Led the SwiftUI migration, converting 40% of the app (30+ screens) from UIKit and cutting launch time by 90 seconds.
- Partnered with the architecture team on a VIPER to Clean Architecture migration to improve testability.
- Championed accessibility, optimized performance with Instruments, and mentored junior engineers.

iOS Engineer **Mar 2020 to May 2021**

Upwork (Freelance), Remote

- Translated ambiguous client specs into 15+ delivered iOS apps, publishing and maintaining them on the App Store.
- Maintained Top Rated Plus status (top 3% of freelancers) with a 100% job success rate.

Mobile Developer (Contract) **Aug 2017 to Mar 2020**

Daimler Trucks North America, Portland, OR

App: Express Writeup, an enterprise app for service writers, dealers, and dealer management system users.

- Owned end to end architecture across iOS and Android (Xamarin), rolled out to 900+ dealerships and 10,000+ users.
- Built a VIN scanner using OCR and Bluetooth that cut write up time by approximately 10 minutes per unit.

EDUCATION

B.S., University of Houston, August 2016
